

# DATA & COMPLIANCE SUPPORT

## FOR COLLEGES AND PROVIDERS

**The landscape is changing beyond recognition for apprenticeships. The data and compliance requirements that have served colleges and providers for the last 30 years will need to evolve. With our Data & Compliance support service we can take the strain off your organisation and ensure that your financial claims are accurate, timely and compliant. We'll also be there for you when the SFA or EFA auditors come knocking.**

It's good to have a consultant who has worked in your sector but better still to have someone who is still doing it. WBCTraining & Consultancy is run by a provider for providers and utilises the experience of many audits, inspections and assurance benchmarks. We have supported the data of thousands of apprentices across many different providers for EFA, SFA and ESF contracts.

WBTC has extensive experience of navigating through audits and regularly passes with a very low error rate of just 0.5%.

### WE GIVE YOU THE SKILLS AND TOOLS NEEDED TO SUCCEED BASED ON OUR EXPERIENCE, NOT THEORY

#### CONSULTANCY

Leaders within colleges, providers and employers will need to consider how they will manage, input and report their data. The need for accurate data systems will be crucial for cash flow, total incomes and protection against any clawbacks. We help providers to establish these systems or indeed to run their data on their behalf.

#### AREAS OF EXPERTISE

- Inputting data from learner records to support any funding claim
- Running regular business reports to arm your decision making
- Writing data policies and procedures to protect your organisation
- Supporting or leading you through audits
- Data provision in Ofsted inspections

#### JON THOMPSON

Jon is a highly experienced data and project manager. With over 30 years experience working for the SFA and its forerunners.

Jon is a trusted adviser when it comes to data and compliance, having supported a wide range of providers through the challenges of funding rules, compliance in audits and the rigours of good data management.

As well as experience in apprenticeships, Jon has also immense experience in managing ESF, EFA and AEB funding streams. Jon can help you develop processes and systems or come up with cost effective ways for WBTC to support your back office data needs.
